17-18 December 2020 in Cairns

TIME: 8:30AM – 4:00PM

COST: \$495.00

Payment plans available

CPD: 12

PRESENTED BY ROB TIMMINGS

Two-day seminar – fully catered

If you loved our Rusty Pills seminar – a refresher on common pharmacology for Nurses and Paramedics, then the long-awaited sequel is now here!

Rusty Pills 2 – “Still Rusty” looks at the safety and risk management of medication. We cover the APINCH high risk drugs and dive into the GI system with medications from one end of the GIT to the other.

Expect to refresh your understanding on Gastric presentations, GORD, Ulcers, Diarrhoea and constipation. Journey with me through the Liver and understand hepatic failure and the common medications used. Our sojourn to the dark recesses of endocrine disorders and Cardiac Inotropic medications will round of this eclectic mix of pharmaceutical tom-foolery.

If you have done Rusty Pills (one) then this is your next chapter. If you haven't, this next instalment has been written in a way that you can do Rusty Pills 2 independent of the original.

Are you still Rusty??
