---

## One-day seminar – fully catered

The ECT4Health Plastering, Casting and Slabbing workshop is a six-hour hands-on practical seminar on the assessment of limb injuries and the application of Plaster of Paris (POP) slabs.

During this program participants will apply 4 upper limb and one lower leg slab which represents the most common scenarios in rural or remote practice. The program commences with an overview and evidence based explanations about safe casting techniques, moulding and splinting of orthopaedic injuries.

This workshop is ideal for 3rd & 4th year Medical Students, final year Nursing Students, PGY 1-4 Doctors, Rural clinicians, Registered Nurses in rural or remote practice, Nurse Practitioners and candidates.
