

RESPIRATORY FAILURE NURSING SEMINAR

DATES:

8-9 August 2019 in Brisbane

TIME: 8:30AM – 4:30PM**COST:** \$495.00

Payment plans available

CPD: 14

Two-day seminar – fully catered

This seminar focuses on refreshing nurses with fundamental physiology, of different systems and how to perform specific focused assessments of patients with respiratory distress. In this course Rob takes you to the cellular level to fully understand deterioration - normal and pathophysiology. Have you ever struggled to understand pre-and afterload and all the respiratory jargon? This course is for you and it might just be the best seminar you attend all year.

Content includes:

- Oxygen - the therapeutic and the poison
- The meaning and types of Hypoxia
- Non-invasive (CPAP/BiPAP vs Invasive Ventilation)
- Asthma in children and adults
- Basic cell biology – Respiratory Anatomy and Physiology overview
