Two-day seminar – fully catered

Trauma Fundamentals Seminar is a two-day course with a comprehensive coverage of physiology, assessment and management of the patient presenting with trauma. This program is designed for ED nurses or those in rural, remote or acute care facilities who may have to assess and manage traumatic injuries. At the completion of the programs, nurses will have an updated approach to assessment, fluid resuscitation and shock management. Whilst the program is basic in its content and will not replace robust study, it serves as an outstanding introduction for the nurse new to emergency, trauma care and rural/remote nursing.

Content includes:

- Basic cellular overview
- Oxygen delivery to tissue
- Nursing assessment
- Epidemiology of trauma in Australia
- Shock, burns and trauma to different systems.
- Differences
