14

Two-day seminar – fully catered

The ECT4Health newest Emergency Nursing refresher is for nurses working in rural or remote areas. An eclectic mix of emergency presentations from mass triage, to initial trauma and shock/haemorrhage assessment and management, to cardiac related chest pain, respiratory emergencies and diabetic emergencies. Our environmental emergency sessions discuss envenomation of Snake and spider bites, and exposure to the elements in a session on heat stress assessment and management.

It is an ideal two-day CPD program for nurses working in regional, rural and remote facilities where they often have to manage a mix of differing presentations in any given shift.

Content includes:

- Basic Physiology – The cell/oxygen and lactate
- Mass triage in rural areas
- Minor head injury
- Diabetic emergencies
