**TIME:** 9:00AM – 4:30PM**COST:** \$495.00

Payment plans available

**CPD:** 13PRESENTED BY KIM KAIM

---

**Two-day seminar – fully catered**

The ECT4Health Bugs 'n Band-Aids seminar is a two-day program that takes nurses through the physiology of wound healing, the discourse of chronic indolent wounds, wound assessment, nutrition, medication and dressing selection. Whether you are in acute care, perisurgical, infectious diseases, aged care/community or school-based care – wounds are one of those low hanging apples that we can always refresh.

Ask yourself “am I confident in reading a wound?”; “do I really know what product this wound needs?”

Content includes:

- Chemistry and cellular response of inflammation
- Pathological wounds – diabetic, venous, arterial, mixed ulcers
- Nutrition and other factors influencing healing
- Wound cleaning – has it changed?
